

# CONDOR II

Sheer elegance is the only description for this spacious four bedroom, two-story.

The exterior is accentuated with a large reverse gable, cape cod style dormers, and just the correct amount of brick deserving of this style.

The first floor includes a spacious entry, powder room, living room, dining room, custom kitchen, and family room.

The second floor reveals four bedrooms, two full baths and a laundry room.

NOTE: Floor plans and elevations subject to change. Elevations are artists' conceptions.
