

SWAN II

The elegance of this traditional two story is accentuated by a full front porch, bow window and two-car garage.

This floor plan reveals a true "family home" in every sense of the word.

A U-shaped kitchen with an adjacent eating area and traffic pattern that flows into the spacious family room highlight the first floor area.

The second level offers the choice of a three or four bedroom design and plenty of the "never enough" closet space.

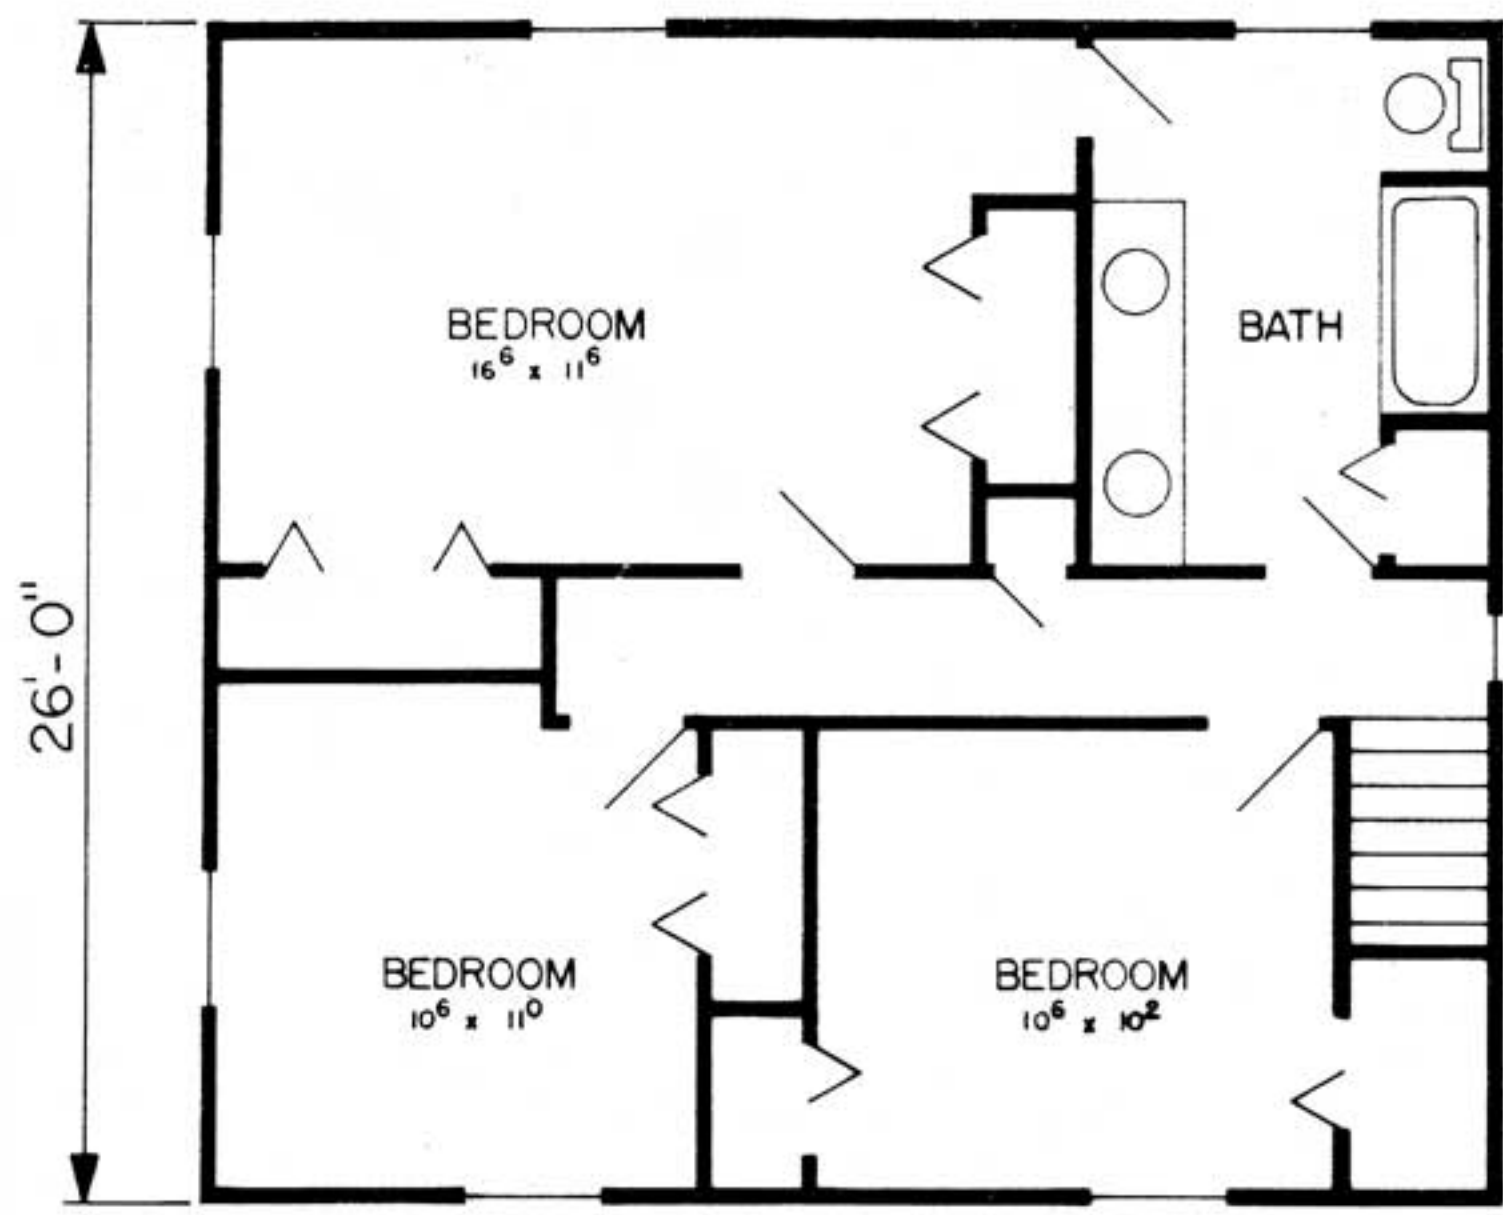

NOTE: Floor plans and elevations subject to change. Elevations are artists' conceptions.
